Innovative ideas for panel building
Let’s connect.

**Terminal blocks Klippon® Connect**

Extra efficiency in planning, installation and operation

Whether in simple handling, more space in the panel or time saving in installation Klippon® Connect offers increased benefits for your panel building process.

Our completely restructured terminal block range includes a new PTB16 terminal block family, for 2.5 bars, with enhanced application products and services for the entire engineering process.

The terminal range – flexible and versatile to use

The Klippon® Connect universal range is a complete range of standard products including all conventional connector technologies and functions.

---

The application range – application specific and durable

There are requirements in panel building that are as integral part of almost any area of use. We’ve closely monitored them to make your work easier for you. The result of our efforts is our new, innovative Klippon® Connect application product range.

**Setting signals in the panel**

Klippon® Connect offers all the benefits required for structured wiring of terminals and actuator signals. The simple handling and the maximum flexibility in the choice of design ensure the requirements for reliable signal wiring simple, efficient and safely.

**Safety supply equipment**

For complex wiring patterns in confined spaces, we offer a functional terminal strategy for optimal potential distribution with direct wiring options for all the device’s plus and minus terminals. This ensures that Klippon® Connect makes planning and implementing your current voltage distribution systems consider only cross production.

---

**Signal wiring**

- **Slim design**
  - High wiring density thanks to narrower 12 mm width
  - Up to 4 different potentials on a terminal block

---

**Control voltage distribution**

- **Space saving**
  - Plus and minus potentials on one terminal
  - Save space required than with conventional design

---

**Cross connectors**

- **Flexible potential distribution thanks to 2 contact points of cross connectors channels**
  - Simplified adaptation and handling of cross connectors

---

**Coloured pusher**

- **Convenient test and check point for each contact point**
  - Time-saving testing of different potentials in the panel

---

**Markers (MultiCard)**

- **DEK and WS (white)**
  - WS 8/8 MM WS 500
  - WS 8/5 MM WS 800
  - WS 10/6 PLUS MC 6 mm 600
  - WS 10/6 PLUS MC 6 mm 600
  - WS 10/5 PLUS MC 5 mm 600
  - WS 10/3.5 PLUS MC 3.5 mm 960
